Dear Freddie & The Ab Fab Team,

I hope you are well. I just wanted to take a moment and inform you that once again the display I had from you was amazing.

As you know I used to use an amalgamation of fireworks from different companies for my self-firing displays. At first, I assumed all self-firing packs were the same but then found out how wrong I was! A friend of mine referred your company to me as you preferred a different style of fireworks. With my previous display packs it was always manic, ie loads of candles and rockets, sometimes having to re-load rocket racks during a display (which I might add is not fun) and generally a lot of running around. Not only was the display hard work but the clearing up afterwards was a nightmare! It still makes me cringe thinking about it, all I can say is thank god I heard about your company!

You showed me how to set up and fire an Absolutely Fabulous Display which meant (1) less hassle for me and (2) bought my displays to the 21st Century!!! I now get to the venue and set up easily without too much hammering and banging (which allows the element of surprise to be better.) Clearing up is a doddle, initially it used to take hour but is now minutes and best bit of all I get to actually watch my display without running around from one firework to another, re-loading rocket racks, etc. Now its calm, easy and really enjoyable...Thank You. Another major bonus is the fact that I can choose the fireworks in my display which to me is fantastic. Normally lots of companies give you a choice of packs and only the price changes, but with your company I get to choose the fireworks I want (with your exceptional guidance, of course!!) and in the end I can have what I want - bespoke every time, which allows me to satisfy my clients even more... superb!!

I couldn't put on the fabulous displays without your knowledge, help and guidance and knowing that you are always available if I need anything gives me great peace of mind. I now recommend anyone doing a display for themselves i.e. Charity events, PTA's, Rotary clubs to contact you as I know they will not be disappointed.

All the best!
